SINCE 1942

C89 - 1DA

Portable Bag Closing Sewing Machine

Over 600,000 portable bag closers sold worldwide

Portable Bag Closing Sewing Machine

C89-1DA is a single-thread chain-stitch portable filled bags closing sewing machine. It is dependable even under the most adverse operating conditions in an agricultural or industrial environment.

The reinforced feed mechanism consisting of wider presser foot and feed dog with a bigger throat plate than conventional single thread chain-stitch bag closing machines helps achieve smoother, even and better looking plain and folded top closures. Protected cutting blades sever the thread with ease after the bag is closed. The oil pump uses efficient internal oil lines to provide continuous lubrication direct to all moving parts as the bag closer is operated. The machine is tough, fast and packed with power to withstand heaviest of workloads.
